

## ASSIST M36 applications in greenhouse-grown ornamentals and vegetables

Application	Combination	Effect	Crops tested
Against spider mite, leaf miners, trips, tomato leaf miner moth, tomato gall mite, pear psyllid	Abamectin (Vertimec Gold and other abamectin EC formulations)	Better control of pest	Pepper, cucumber, tomato, asparagus, pear, chrysanthemum
Against spider mites	Milbemectin (Milbeknock)	Better control of spider mite	Chrysanthemum, roses
Against trips	Spinosad (Tracer)	Better control of trips	Chrysanthemum, gerbera
Against trips	<i>Beauveria bassiana</i> (BotaniGard)	Better control of trips	Crysanthemum
Against leaf miners	Cyantraniliprole (Mainspring)	Better control of leaf miners	Gerbera
Against greenhouse whitefly ( <i>Trialeurodes vaporariorum</i> )	Pymetrozine (Tafari)	Better control of greenhouse whitefly ( <i>Trialeurodes vaporariorum</i> )	Gerbera, cucumber
Against greenhouse whitefly ( <i>Trialeurodes vaporariorum</i> )	Flonicamid (Teppeki)	Better control of greenhouse whitefly ( <i>Trialeurodes vaporariorum</i> )	Gerbera
Against tobacco whitefly ( <i>Bemisia tabaci</i> ) and greenhouse whitefly ( <i>Trialeurodes vaporariorum</i> )	Acetamiprid (Gazelle)	Better control of tobacco whitefly ( <i>Bemisia tabaci</i> ) and greenhouse whitefly ( <i>Trialeurodes vaporariorum</i> )	Gerbera
Against aphids	Flonicamid (Teppeki)	Better control of aphids	Viburnum, potato
Against green peach aphid ( <i>Myzus persicae</i> )	Spirotetramat (Batavia)	Better control of green peach aphid ( <i>Myzus persicae</i> )	Chrysanthemum <sup>1</sup>
Against green peach aphid ( <i>Myzus persicae</i> )	Cyantraniliprole (Mainspring)	Better control of green peach aphid ( <i>Myzus persicae</i> )	Roses
Against tomato leaf miner moth ( <i>Tuta absoluta</i> )	Spinosad (Tracer)	Better control of tomato leaf miner moth ( <i>Tuta absoluta</i> )	Tomato
Growth regulation	Paclobutrazole (Bonzi)	Better growth regulation	Petunia, verbena, sutera
Growth regulation	Propiconazole (Tilt)	Better growth regulation	Pernettya
Leaf wetting	Spray liquid	Better leaf wetting	Pepper, lisianthus

1 Please be aware that some chrysanthemum cultivars are sensitive to spirotetramat and the reaction will be stronger in combination with ASSIST M36.

**Adjuvant ASSIST M36:**

ASSIST M36 is an emulsifiable and esterified rapeseed oil. This adjuvant improves the performance of insecticides, fungicides, herbicides and growth regulators.
